

# Contents

	<b>Preface</b> .....	<b>xiii</b>
	<b>Acknowledgments</b> .....	<b>xv</b>
<b>1</b>	<b>Distributed Computing</b> .....	<b>1</b>
	1.1 Winds of Change .....	1
	1.2 The Internet .....	2
	1.3 Computers with Multiple Processors .....	3
	1.4 Synchronization .....	3
	1.5 Why is Synchronization Difficult? .....	4
	1.6 Algorithms and Programs .....	5
	1.7 Concurrent and Distributed Algorithms .....	5
	1.8 Impossibility Results .....	6
	1.9 Chapter Notes .....	6
<b>2</b>	<b>One Loaf of Bread, Please</b> .....	<b>9</b>
	2.1 The Too Much Bread Problem .....	9
	2.2 Applications .....	9
	2.3 First Attempt .....	10
	2.4 Second Attempt .....	11
	2.5 Third Attempt .....	12
	2.6 Fourth Attempt: A Correct Solution .....	13
	2.7 Communicating by Reading and Writing of Notes .....	16
	2.8 Chapter Notes .....	17
	2.9 Self Review .....	17
<b>3</b>	<b>A Tale of Two Lovers</b> .....	<b>19</b>
	3.1 The Two Lovers Problem .....	19
	3.2 Applications .....	19
	3.3 A Surprising Impossibility Result .....	20
	3.4 Further Explanations .....	20

3.5	Chapter Notes .....	21
3.6	Self Review .....	22
<b>4</b>	<b>A Night at the Movies .....</b>	<b>23</b>
4.1	The Movie Agreement Problem .....	23
4.2	Applications .....	24
4.3	A Surprising Impossibility Result .....	25
4.4	A More General Result .....	26
4.5	An Algorithm .....	26
4.6	Further Explanations .....	28
4.7	How Many Rounds are Needed? .....	28
4.8	Chapter Notes .....	29
4.9	Self Review .....	30
<b>5</b>	<b>The Fall of the Byzantine Empire .....</b>	<b>33</b>
5.1	The Byzantine Generals Problem .....	33
5.2	Applications .....	34
5.3	A Surprising Result .....	35
5.4	An Algorithm .....	35
5.5	Further Explanations .....	36
5.6	Chapter Notes .....	38
5.7	Self Review .....	39
<b>6</b>	<b>Sightseeing in Paris .....</b>	<b>41</b>
6.1	The Choice Coordination Problem .....	41
6.2	Applications .....	42
6.3	A Randomized Algorithm .....	43
6.4	Further Explanations .....	43
6.5	A Simple Deterministic Algorithm .....	45
6.6	Perfectionism, It Seems, Does Not Pay! .....	46
6.7	Chapter Notes .....	47
6.8	Self Review .....	48
<b>7</b>	<b>Food for Thought .....</b>	<b>51</b>
7.1	The Dining Philosophers Problem .....	51
7.2	Applications .....	53

7.3	Deadlock Prevention: The Total Order Technique	53
7.4	Hold and Wait Strategy: The LR Algorithm	54
7.5	Hold and Wait Strategy: The LLR Algorithm	55
7.6	Wait and Release Strategy: The Wait/Release Algorithm	56
7.7	Wait and Release Strategy: A Randomized Algorithm	57
7.8	Chapter Notes	59
7.9	Self Review	59
<b>8</b>	<b>All for One and One for All</b>	<b>63</b>
8.1	The See-Saw Puzzle	63
8.2	Applications	64
8.3	The Kids' First Plan	65
8.4	The Kids' Second Plan	66
8.5	The Kids' Final Plan	67
8.6	Further Explanations	69
8.7	Chapter Notes	71
8.8	Self Review	71
<b>9</b>	<b>The World is a Playground</b>	<b>73</b>
9.1	The Green-or-Blue Game	73
9.2	Applications	74
9.3	Two Observations	75
9.4	The Kids' Plan	75
9.5	Further Explanations	76
9.6	An Alternative Plan	77
9.7	The Queen's New Challenge	78
9.8	A Surprising Impossibility Result	80
9.9	The Queen's Final Challenge	81
9.10	General Impossibility Results	82
9.11	Chapter Notes	85
9.12	Self Review	85
<b>10</b>	<b>Getting the Service You Deserve</b>	<b>87</b>
10.1	The Two Tellers Problem	87
10.2	Applications	88
10.3	First Attempt: A Solution Which Cannot Tolerate a Single Fault	88

10.4	Second Attempt: A Correct Solution .....	91
10.5	How Many Notes are Needed? .....	92
10.6	Chapter Notes .....	93
10.7	Self Review .....	94
	<b>Bibliography .....</b>	<b>95</b>
	<b>Author's Biography .....</b>	<b>103</b>
	<b>Index .....</b>	<b>105</b>
